Here's what's on offer...

For a fun, out of office team building day with plenty of new, innovative and exciting ideas to get the most out of your work force, we deliver a variety of activities. Our range of land and water based activities will engage and test participants, requiring them to draw upon their own resources and those of others to overcome obstacles and challenges. In the process, team working skills will need to be employed and leadership tested but always in a fun and light-hearted way.

Find a group of people who challenge and inspire you, spend a lot of time with them, and it will change your life forever."

"The day turned out to be a huge success! It was a good chance to network with other members of the department whilst having fun in a different setting with everyone out of their comfort zones. Every member of the team embraced the activity and gave it their all, win or lose. I would definitely recommend this for anyone who needs to bring a team together and form stronger bonds."
